## Utility Belt Comments

REFUSED TO WEAR - TOO BIG

BELT TOO BIG

BELT SHOULD NOT BE USED TO HOLD UP TROUSERS, IT SHOULD BE WORN OVER A NORMAL BELT. IT WOULD BE BETTER TO HAVE A WIDER NORMAL TYPE OF BELT (LIKE THE POLICE LEATHER BELT)

DIDN'T WEAR AS TOO UNCOMFORTABLE

NO DISCERNABLE DIFFERENCE BETWEEN PREVIOUS ISSUES.  
AGE OLD PROBLEM REMAINS - BELT TOO THICK

I HAVE THE OLD STYLE BELT AND ITS FAR TOO STIFF AND AWKWARD TO USE. OTHER STAFF ARE USING A MUCH THINNER MORE COMPLIANT BELT WHICH SEEMS EXCELLENT. WITH THE OLD THICK STYLE WHEN YOU TRY AND STORE THE TROUSER IN THE LOCKER THE THICK TYPE FORMS A RIGID HOOP AND MAKES IT DIFFICULT TO STORE THE TROUSERS IN LOCKERS.  
SO YES A UTILITY BELT IS AN EXCELLENT IDEA BUT A THIN TYPE PLEASE.

I FEEL THE UTILITY BELT IS PRACTICAL BUT NOT WHEN YOU HAVE TO FEED IT THROUGH THE WAISTBAND. YOU CANNOT REMOVE IT QUICKLY SO FOR SAFETY REASONS THE BELT SHOULD NOT FORM AN INTEGRAL PART OF THE TROUSERS.

FOUND THE BELT VERY STIFF AND AWKWARD TO WEAR. I WOULD LIKE TO HAVE THE CHOICE OF WEARING A NORMAL BELT AS WELL.

UNABLE TO TRIAL - WRONG SIZE SENT

BELT SUPPLIED WAS TOO LARGE. I USED MY OLD ONE ISSUED 4 YEARS AGO

THICKNESS OF THE BELT MAKES SIZE ADJUSTMENT DIFFICULT

NOT WORN ON DUTY

BELT IS VERY STIFF AND INFLEXIBLE AND WHEN SITTING IT BENDS INTO THE SMALL OF THE BACK DUE TO ONE BELT LOOP AT THE REAR OF THE TROUSERS. THE TROUSER LOOPS NEED TO BE SLIGHTLY BIGGER AND AT LEAST 2 MORE ADDED TO THE REAR OF THE TROUSERS. A SECOND UTILITY BELT HAS TO BE WORN OVER THE TOP AS PENCLES CAN NOT BE FITTED WHEN THE BELT IS PUT THROUGH THE LOOPS .

AWKWARD TO TAKE ON AND OFF

I HAVE THE SOFT BELT RATHER THAN THE RIGID BELT. I AM THE ONLY PERSON I HAVE SEEN WITH THIS BELT! SOFT BELT IS FINE.

ADJUSTMENT WAS UNACCEPTABLE DUE TO RIGIDITY OF BELT. HAD TO USE OLD BELT

BELT GIVES GOOD SUPPORT TO TROUSERS - NO OTHER BELT REQUIRED IF UTILITY BELT HAS BEEN ADJUSTED CORRECTLY.  
UNABLE TO USE TRIAL BELT (TOO LONG) HAD TO USE EXISTING BELT

BELT WAS TOO THICK AND BULKY

DIFFICULT TO PUT ON.  
UNCOMFORTABLE AND IMPOSSIBLE TO ADJUST

BELT TOO STIFF

EXCELLENT PRODUCT - MADE THE TROUSERS FIT BETTER

DISLIKED IMMENSELY

WRONG SIZE BELT GIVEN

UNCOMFORTABLE

## Utility Belt Comments

DIFFICULT TO PUT ON  
BUCKLES TOO BIG

I HAVE USED MY OWN UTILITY BELT FROM THE CURRENT ISSUE. IT SEEMS TO FIT AND ADJUST BETTER

HAD FLEXIBLE BELT - WHICH I REALLY LIKED. DO NOT LIKE RIGID BELT

PREFER THE THICKER BELT

LARGE BELT LOOP ON TROUSERS IS NOT NEEDED FOR THE UTILITY BELT AS ITS TOO HARD TO REMOVE FOR COMFORT WHEN SITTING OR DRIVING

BELT IS NOW MORE WEARABLE BECAUSE IT GOES THROUGH TROUSER LOOPS

MATERIAL TOO SOFT

UNABLE TO MAKE BELT SMALL ENOUGH FOR ME

HAD THE SOFT BELT, WHICH WAS BETTER THAN THE HARD BELT

TENDS TO PINCH BELLY WHEN ONE SITS DOWN  
TOO DEEP TO FIT PAGER ON BELT

UNFLEXIBLE AND UNCOMFORTABLE

TOO DEEP AND UNCOMFORTABLE

I AM UNABLE TO COMMENT ON THIS, AS I PERSONALLY DON'T LIKE THEM AND HAVE NEVER WORN ONE.

NO GOOD FOR GOING THROUGH LOOPS ON TROUSERS. DON'T HELP IN KEEPING TROUSERS UP. USE SMALLER LOOPS AND A NORMAL TYPE OF BELT.

WOULD PREFER NORMAL BELT

I LIKE TH EBELT AND USE IT EVERY SHIFT, BUT YOU CANNOT ADJUST THE SIZE DUE TO THE STIFFNESS OF THE INTERNAL FABRIC. THIS DOES CAUSE A PROBLEM BECAUSE IF YOU WEAR POUCHES AND BECAUSE THE BELT IS LOOSE IT PULLS DOWN THE TROUSERS. THE BELT WOULD BENEFIT IF IT WAS TRADITIONAL FASTENING WITH BUCKLE AND HOLES OR IF THE INNER MATERIAL WAS MORE PLYABLE ENABLING YOU TO MAKE ADJUSTMENTS.

I WAS ISSUED WITH A RIGID BELT, WHICH WAS QUITE COMFORTABLE. I BELIEVE THAT SOME STAFF WERE ALSO ISSUED WITH A MORE FLEXIBLE BELT, WHICH I WOULD HAVE LIKED TO TRY. IN THE END - THE RIGID BELT PROVED VERY COMFORTABLE.

I HARDLY WORE MY BELT AS I FOUND IT EXTREMELY UNCOMFORTABLE TO WEAR. I RESORTED TO MY OLD LEATHER BELT.

NO REAL DIFFERENCE FROM OLD BELT.

BELT TOO RIGID

NOT SUPPLIED IN MY SIZE

ONLY PROBLEM -TIME CONSUMING ADJUSTMENT. GOES WELL WITH NEW STYLE OF TROUSER.

N/A

TOOK ABOUT 5MIN EACH MORNING TO FIT BELT CLASP THROUGH HOOPS OF THE TROUSERS, IN THE END GAVE UP. BELT VERY RIGID AND UNCOMFORTABLE.

DON'T LIKE IT.

DID NOT USE IT.

A VERY SMALL PERCENTAGE ACTUALLY USE THE BELT AS IT IS UNCOMFORTABLE AND NOT VERY USEFUL TO US.

WOULD PREFER A MORE FLEXIBLE FABRIC ESPECIALLY FOR ADJUSTMENT.

## **Utility Belt Comments**

SOFT BELT WAS TOO FLEXIBLE.

COULDN'T ADJUST BELT TO FIT TROUSERS SO DIDN'T WEAR IT.

BELT WAS TOO RIGID. UNCOMFORTABLE ESPECIALLY WHEN WORN WITH STAB VEST.

WHY DO WE NEED A UTILITY BELT? WE ARE NOT BATMAN! PENTORCHES AND SCISSORS ETC CAN FIT INTO POCKETS.

BELT GATHERS AT THE BACK.

HAD REAL TROUBLE GETTING BELT THROUGH LOOPS. BELT WAS VERY STIFF.

COULDN'T SEE ANY OBVIOUS DIFFERENCE FROM THE CURRENT ONE. I THINK A SUITABLE SIZED SID POUCH WOULD BE A GOOD ADDITION.
