

COMMUNICATIONS

NEW FORMAT FOR BRANCH BULLETINS

As part of a restructure in branch communications, the branch will now issue different headed bulletins depending on who has issued it. We hope that this will make our communications clearer and enable you to understand exactly what type of information we are trying to convey to you.

The style of each bulletin is the same but each branch officer will have a different coloured heading. In addition, 2 colours have been reserved for senior sector reps and station reps. Sector Reps will all use a yellow header while station and complex reps will be represented by a black heading.

Other Branch Officers and general messages from the branch as a whole can use a dark green header or continue to use the standard letter heads.

Below are the new headers for your info:
